

MPTDUCT

Pressure sensor for constant pressure regulation

Product description

Miscellaneous accessories for installation and operation of air handling unit ranges

Fields of application

Multi-occupancy residential housing, New, Refurbishment, Non-residential buildings

Installation

0

Reference arguments

Pressure sensor for constant pressure regulation using modbus communication. Can be connected directly to the unit's external bus without use of an MIO module.

Constant pressure regulation of both supply air duct and extract air duct requires 2 x MPT-DUCT.

If VAV is used on a duct line, MPTDUCT must be used.

Main characteristics

- outdoor installation kit,
- sensors,
- 3-way valve,
- remote control,
- etc.

Electrical datas

Protection rating	IP54
